PROFESSIONAL EXPERIENCE

Decode, Frontend Developer

Feb. 2022 – Present

- Designed and developed enterprise-level websites for hospital systems with thousands of pages, exceeding client expectations by delivering a seamless user experience and robust functionality
- Pioneered the use of Headless (Decoupled) architecture for both Wordpress and Shopify websites, resulting in improved performance, customization, and ease of maintenance
- Created 10+ Data Visualization dashboards with Tableau, showcasing data in a clear and concise manner, and providing clients with actionable insights that have supported informed decision making.

Fuzati, Frontend Developer

Feb. 2019 - May 2022

- Overcame the challenge of managing contract-based time restrictions and efficiently resolved more than 3000 customer support tickets, increasing customer satisfaction and loyalty.
- Demonstrated expertise in website development by spearheading the end-to-end creation of 100+ websites and landing pages, achieving positive outcomes in terms of user experience, functionality, and visual appeal.
- Exhibited strong leadership qualities by remotely managing a diverse team of international and overseas developers, fostering a collaborative work environment, and delivering projects within set deadlines.

BellaGreen, Manager, Expo

Feb. 2018 - Mar 2019

- Coordinated the exposition of upwards of \$3,500 worth of food per hour, demonstrating exceptional leadership and organizational skills.
- Headed a 15-person team of both waitstaff and cooks, fostering a collaborative and productive work environment.
- Trained 8 new hires effectively, ensuring their successful integration into various positions.
- Created and maintained a weekly schedule, skillfully adjusting hours to maintain optimal staffing levels and ensuring efficient operation of the establishment.
